	XC60 Recharge	2018 - 2024
	XC90	2016 - 2025

* Certain features powered by CleverKey may not be available.

† Vehicle alarm might trigger in some models.

‡ For some PHEV vehicles, Battery State of Charge (SoC%) parameter in the CleverCharge app may be off by up to 10% when compared to your in-vehicle dashboard. This is due to differences in how SoC is calculated in Generic OBDII (J1979) compared to the OEM Proprietary parameter.

‡ The 2025 Ford Mustang Mach-E is currently not supported for this one single model year due to Ford changing the way data is provided at the diagnostic port for just this Year.

IMPORTANT: If your vehicle Year / Make / Model is not listed,
it is **NOT** CleverKey Compatible at this time.

NOTE: We are continuously adding support for new vehicles, and making updates to existing supported vehicles.

If your vehicle is not currently listed, it may be added in a future Over The Air update release.

If you have questions or concerns about CleverKey vehicle compatibility,
please reach out to our US-based support team:
